Draft-arkko-farrell-arch-model-t-03

J. Arkko & S. Farrell

Updates

- Added material on **web tracking**
  - Under Section 2.3 Examples and Section 4. Areas requiring further study
  - Thanks Eric & Chris!

- More options for **changes in RFC 3552**, see Section 6
  - Offered three alternatives
  - <u>Simple but relatively obvious</u>: just one sentence
    - "It is, however, possible to design protocols which minimize the extent of the damage done when the other parties in a protocol become compromised or do not act in the best interests the end-system implementing a protocol."
  - <u>Slightly more text about capabilities & analysis</u> of endpoint roles
  - <u>A more comprehensive set of defense guidelines</u>
    - Limiting time of exposure, forcing active attacks, etc.
    - This could also be a freestanding RFC
